## III. REGULAR AGENDA - DISCUSSION AND ACTION:

### PUBLIC HEARING Rezoning Applications:

1. **PZRZ12-00008:** Portions of Sections 17, 18, 19, 20, Block 80, Township 1, Texas and Pacific Railway Company Surveys, City of El Paso, El Paso County, Texas  
Location: North of U.S. 54 and East of McCombs Street  
Zoning: GMU (General Mixed Use)  
Request: Major Master Zoning Plan (MZIP) Amendment  
Existing Use: Vacant  
Proposed Use: Retirement Community  
Property Owner: El Paso Water Utilities – Public Service Board of the City of El Paso  
Representative: Edmund Archuleta, CEO, PSB  
District: 4  
Staff Contact: Michael McElroy, (915) 541-4238, [mcelroyms@elpasotexas.gov](mailto:mcelroyms@elpasotexas.gov)

Keith Dewey Senior Planner with the URS Corporation noted that they are in contract with the EPWU for the initial design and the vision for the Retirement Community Master Plan. He gave a quick introduction on the Master Plan and the Major Amendment Master Zoning Plan. He noted that they are focusing on the 400 acre piece of parcel which is located on the eastern portion of the NE Master Plan. Given the proximity of the golf course, they feel this is a perfect location for a Retirement Community. This Retirement Community will be the first of its type in El Paso. He discussed some of the goals they are trying to create. He noted that they have been asked by the Planning Staff to incorporate as much of the Smart Code principles as they can but he also noted that the Smart Code currently does not allow for accommodation of a Retirement Community. They have tried to incorporate as much of the principles as they could but have some flexibility for the next stages for the developer for this property. He feels they can get three pedestrian sheds encompassed by a park with green space in the middle. All three of the pedestrian sheds would be located around the central green area which is a very deep component of most successful retirement communities. Now that they have the foundation of that community setup, they have a couple of major north/south arterials as well as one east/west arterial that incorporates playing a much larger area into the west. He gave a quick zoning overview and noted that the configuration of the site is zoned GMU (General Mixed Use). A key component to retirement communities are amenities like a recreational center that have work-out facilities, pools, dance courts, and multi-purpose buildings to accommodate the different types of uses that could go in with the development of this type. The commercial retail component is also a key aspect of these types of communities. They typically include a pharmacy, a bank, a small convenient store, dry-cleaners, and there will also be a non-denominational church.

They are requesting approval of the Revised Land Study and Major Amendment-Master zoning Plan and authorization to forward the application for the proposed Retirement Community Project to City Council.

Pat Adauro from the EPWU explained the notations on the EPWU comments under the staff report. She noted that this part of the property and most of the NE Master Planned area, all the way to the state line to the north as well as land in the west side of El Paso are subject to Impact Fees. This is just a notation that as lots are sold and as part of the permitting process those fees will be assessed. The fees are based on the serviced area calculations. Even though there are

no schools sites shown within this 400 acres there are multiple school sites shown in the remainder of the NE Master Plan area as well as to the southeast, where they are coming in with another Smart Code Application known as The Painted Dunes. Adjoining this property, there will be school sites, should children live in this area. They have been working for many years with various groups including Ft. Bliss and El Paso Del Norte and others who have done marketing analysis in the area and they believe this is a good plan. She pointed out that currently the El Paso Water Utilities has an RFQ out in the street to hire a professional management company that will help the utility to market, advertise, finance, find development partners and actually find master developers and builders for this site. One of the components for this scope of services will be to evaluate this plan and if changes are necessary the EPWU will come back to the Commission with additional revisions but at this point, EPWU feel that URS Corporation has done a great job of incorporating the different components that make a retirement community successful. She does not expect major changes at all.

She noted that the design is being presented today is a major amendment to the Master Zoning Plan conforms as close to the Smart Code as they could achieve given the fact that it will remain GMU (General Mixed Use). When they hire the management company they want to utilize this as the starting point and not the current zoning and the current Master Plan for this area. EPWU is asking for the Commission's approval and they will also ask the City Council for their approval as well. The Smart Code as currently written in the Municipal Code does not allow for retirement communities, so working with City staff, EPWU was advised to leave it GMU (General Mixed Use) but to utilize as many of the principles of the Smart Code as they could achieve without having its own Smart Code.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request. There was no response.

**ACTION:** Motion made by Commissioner De La Cruz, seconded by Commissioner Carreto, and unanimously carried to **APPROVE PZRZ12-00008**.

Motion passed.

2.      **PZRZ12-00009:**      A portion of Lots 22, 23, and 24, Map of Palmdale Acres, an Addition to the City of El Paso, El Paso County, Texas
- Location:                      7235 North Loop Drive
- Zoning:                        R-F (Ranch and Farm)
- Request:                      From R-F (Ranch and Farm) to C-4 (Commercial)
- Existing Use:                Product Manufacturing Facility
- Proposed Use:               Wood Product Manufacturing Facility
- Property Owner:            Carlos Diaz, Jr. and Lillian Jacquez
- Representative:            Jesus L. Jaime
- District:                      3
- Staff Contact:               Andrew Salloum, (915) 541-4633, [salloumam@elpasotexas.gov](mailto:salloumam@elpasotexas.gov)

Andrew Salloum, Planner, noted that staff is recommending denial of rezoning the subject property from R-F (Ranch and Farm) to C-4 (Commercial) based on incompatibility with the surrounding manufacturing zone district in the area.

Jesus Jaime representing the owner does not concur with staff's comments. He stated that the property owner noted that if they cannot get a C-4 (Commercial) zone then they want a C-2 (Commercial) zone but not an M-1 (Light Manufacturing).

Philip Etiwe, Development Review Manager, noted that staff is recommending an M-1 (Manufacturing) zone.

Mr. Jaime requested a two week postponement to allow him to talk to his client and see whether they want to remain R-F (Ranch and Farm) zone or if they want an M-1 (Light Manufacturing) zone.

Commissioner Nance asked if there was anyone in the public who wished to speak in favor or against this request.

Lupe Cuellar, Assistant City Attorney, noted that the State Code specifically states that any rezoning has to be in conformance with the Future Land Map. The City recently adopted a C Comprehensive Plan and a New Future Land Use Map and that Future Land Use Map is one that staff has included in here and states that it has to be used for industrial uses. You would not be able to rezone it to something other than that because then you would be in violation of the state code.

Elva Villagran spoke in opposition to a C-4 (Commercial) zone. She expressed concerns about safety and traffic issues.

**ACTION:** Motion made by Commissioner Wright, seconded by Commissioner Carreto, and unanimously carried to **POSTPONE PZRZ12-00009 FOR TWO (2) WEEKS, TO THE CITY PLAN COMMISSION MEETING OF JUNE 28, 2012.**

Motion passed.
